Detailed Action

This is the second Office Action corresponding to amendment filed April 25, 2005. The application contains 11 claims.

Response to Amendment

The amendment filed April 25, 2005 is very confusing. On page 2, Applicant refers to amendments to claims 12, 15 and 16, and to the addition of new claims 23-35. However, the application was original filed with only 10 claims; and it appears that only one new claim 11 has been added. The latter appears to be confirmed by Applicant on the remarks listed on page 6. Only 11 claims are presented for examination.

Claim Rejections - 35 USC § 112

Claims 1-10 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. No where in the specification is found that the new limitation of amended claim 1 regarding that fixtures are attached directly onto a plasterboard and the use of fasteners connecting the fixtures to the plasterboard and to the bracket.

Election/Restrictions

Newly submitted claim 11 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the claim is directed to a plasterboard support system comprising a plasterboard providing an inwardly facing surface. This is not only a different invention from the one recited in claims 1-10 but also incurs in new matter, since no description for a plasterboard having the recited characteristics is found in the original disclosure.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 11 is withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Response to Arguments

Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
